Claresholm Garage Limited

Claresholm Local News

J. L. McCrimmon spent Wednesday in Calgary.

Qualty & Yokom are installing two new gasoline pumps.

Mrs. W. R. Thompson of Calgary is visiting her mother, Mrs. W. Moffatt.

February weather so far has been mild, with a spring-like feel in the air much of the time.

Chas. Yokom spent a few days in Calgary this week, attending the Chevrolet dealers' convention.

Qualty & Yokom unloaded a car load of new Chevrolets this week.

Clarendon and Stanley Wyatt left for Los Angeles and other points in California on Saturday night.

Mr. Dow, of Lethbridge, District Plant Chief Alberta Government, was in town Thursday and Friday.

The Catholic Women's League are holding St. Patrick's tea on Saturday, March 19. Watch for further announcement.

Mr. Cockburn of the C. S. A. staff, Neil O'Neil of Woodhouse, and D. L. King of Stirling, are in Edmonton this week, attending the dairy convention.

Hoot Gibson in "The Phantom Ballet" at the Rex theater Friday and Saturday nights this week. Adapted from the story "Click of the Triangle" by Oscar Reisch.

There will be a dance held in the Clear Lake school on Friday night, February 18. Good music provided by Miss Emma and Mr. Scott. Everybody welcome.

Delbert Reynolds and John Edlund will attend the Grand Lodge of the I. O. O. F. in Calgary, next week, as representatives of Foot Hill Lodge No. 13.

A reorganization meeting of the Claresholm Boy Scouts will be held on Tuesday, February 15 at 7:30 in the Parish Hall. All boys over 12 who wish to join are welcome.

O. Ferns, a promising young farmer from Redcliffe, is now in town looking the district over with a view to settling here. Mr. Ferns is a friend of Mr. Jim Haslam.

The rink committee will make a thorough report at the meeting of the Elks next Wednesday night, February 16. All Elks are requested to be present.—O. C. Arnestad, Sec.

Remember the Elks' big Valentine dance next Monday night. Music by Blackbird seven piece orchestra. There will be novelties and prizes.

Under the auspices of the men of St. John's Church of England, a dramatic entertainment and concert will take place in the I. O. O. F. hall on Tuesday, March 1. Announcements as to the nature of the entertainment will be made later.

The vaudeville show on Wednesday night was not one of high merit. The orchestra opened with some good jazz. A lady member of the company gave two good vocal and instrumental selections, and there was a good vocal duet, with these exceptions the program was puny.

Part of the Elks' covered rink committee, consisting of M. H. Arnestad, J. D. Dickmeier, John Bowie and H. A. Fairbairn, journeyed to Vulcan, High River and Nanton to investigate the rinks in those towns and came back very favorably impressed with what they saw.

The funeral of the late Mrs. Ralfe Letard, who died this week in Saskatchewan, will be held on Saturday, February 12. Interment in the Claresholm cemetery. The service will be in charge of Rev. Dalglish and Rev. Langille. The late Mrs. Letard was a daughter of Mr. and Mrs. C. W. Carreene, and a sister of Mrs. Mackay.

ALL V/CANCIES ON COUNCIL, SCHOOL BOARD CONTESTED

At 12 o'clock noon, when nominations for mayor, councillors and school trustees were declared closed by Returning Officer Thos. Murray, the following names had been put up:

For Mayor
Geo. W. Ringrose, undertaker,
by E. H. Mack and John Bowie.
John M. Wall, livestock dealer,
by J. J. Dea and T. Edlund.

For Councillors
Norman MacKenzie, engineer,
by P. E. Hood and M. H. Arnestad.

Martin H. Arnestad, agent, by F. A. Toxtat and Mark Fisher.
Stanley Wyatt, gangman, by C. N. Booth and C. E. Tillotson.
John M. Soly, merchant, by A. E. Quis and Ole Husted.
Geo. R. Maxwell, gentleman, by Wm. Mackintosh and J. D. Dickmeier.

J. W. Morrow, grain dealer, by Wm. Knight and D. A. Anderson.

For School Trustees
H. A. Fairbairn, by E. H. Mack and C. M. Medley.
E. H. Mack, by C. J. Amundsen and Frank Murray.
Carl J. Braren, by H. Paulson, F. Toxtat, P. E. Hood and M. H. Arnestad.

There are to be elected, one mayor, three councillors and two school trustees.

MILITARY BALL IS COLORFUL AFFAIR

The largest crowd of the season was gathered at the I. O. O. F. hall last Friday night, for the third annual military ball, held under auspices of "B" Squadron, 2nd Alberta Mounted Rifles. The many dancers enjoyed themselves to the full, the augmented Blackbird Orchestra, largely contributing to this. Wm. Ryan and Scotty Henderson provided a free attraction in the supper interval.

The hall was decorated in the Squadron's colors, blue and gold, and looked very festive. The crowd was estimated at around five hundred persons, while the net receipts are said to be \$1300. The soldier boys know how to put these things over right, and did themselves proud. They arranged for a blackface act, put on by Billy Ryan and Scotty Henderson, Billy giving an amusing monologue and getting an encore on his dog dancing, for which Scotty supplied the harmonica music.

Among those present were Colonel Commandant Gibson, Colonel D. W. B. Spry, Colonel James Walker, all of Calgary, and Lieutenant Colonel Jackson commanding 2nd A. M. R. of Pincher Creek, Lieutenant Colonel Lyndon of Lyndon, Major R. C. Jessup, Nanton; Lieut. J. P. Alexander, Pincher Creek; Lieut. W. L. Watkins of High River.

Qualty & Yokom report the following Chevrolet sales this week: Mr. Campbell of Woodhouse, sedan; Oscar Long, sedan; Mr. Bayfield of the C. S. A. staff, coupe; truck, Imperial Oil Co. Staveland; and two second hand cars.

Claresholm Lodge No. 17, Knights of Pythias, installed the following officers on the 3rd inst: C. G. Gundersen, Chancellor; Commander; L. Hutton, Vice Chancellor; C. R. Romain, Keeper of Records and Seal; Ben Andrews, Inner Guard; John Edlund, Outer Guard.

A meeting of the Claresholm Rifle Club will be held next Tuesday evening at 7:30 o'clock at the W. V. A. club rooms. Every one interested in rifle work should make an effort to attend, as plans will be made for the coming season, and officers elected for 1927. The club has received its first grant from the department of National Defence and will be able to proceed with range work as soon as the warm weather arrives.

The Growth Of Motor Travel Responsible For Greater Interest Now Taken In National Parks

The 1926 motor season witnessed the establishment of new records in the number of persons visiting the Canadian National parks.

While this increase has been general, it has been most noticeable in the matter of motor tourists. Advances made in the automobile industry and in the construction of good roads have brought corresponding advances in the growth of motor travel, until this traffic has become of great importance in the development of the country.

Highways play an important part in drawing a large number of the tourists who visit Banff and Kananaskis National parks by motor. Through the Kananaskis gateway, which is the eastern entrance to the Banff park and the Red Deer National park, which is the western entrance to the Banff park, there has been a steady increase in the number of motor tourists.

The volume of travel which poured into these two parks by motor is shown by the registration. At the Kananaskis gateway at the end of October of this year 1926 more cars had been registered as motoring at Banff, Hot Springs gateway, 6,592 entries were recorded, making a total of 14,652 cars entering in the season. This number shows an increase of 2,579 over the number recorded in 1925.

Peterborough National Park, in Southern Ontario, on the International boundary, drew an amount of tourist travel far in excess of the previous year. The possibilities of this scenic wonderland are accounted for the thus far extensive development announced in 1926.

The opening in June, 1926, of the motor road extension from Lake Louise to Field, through Yoho National Park, for the first time brought prominence in the motor tourist world. The further extension of this road, which will enable motorists to proceed through the park to the west, is expected to be opened to travel early in 1927.

Jasper National Park, in the northern part of Alberta, had a most successful season, nearly 7,000 hotel registrations having been recorded since the end of October.

The National Buffalo Park at Watkinsburg, Alta., drew more visitors than in former years. A very keen interest in being taken to all countries, particularly in Canada, in the United States, in the efforts of the Canadian Government to preserve the buffalo and also in the conservation of the park, being conducted at Buffalo Park in cross-breeding.

Alberta Fur Production

Beaver Trapping is Now Permitted Under Certain Restrictions.

The trapping of beaver and muskrat in Alberta for production for the fur trade is now permitted under certain restrictions. The season for the fur trade is now open, and the trapping of beaver and muskrat is now permitted under certain restrictions. The season for the fur trade is now open, and the trapping of beaver and muskrat is now permitted under certain restrictions.

Alberta Oil Fields

Three Big Wells Now Picked on Producing Basis.

Three big wells in the Turner Valley oil field in Alberta are now on producing basis. They are the No. 1, 2, and 3 wells, which are now producing oil at a rate of 1,000 barrels per day. The Turner Valley oil field is one of the largest in Alberta, and the production of oil from this field is expected to increase in the future.

Saskatchewan Financial Status

Rural Municipality Collections Show a Good Increase.

Saskatchewan's financial status is better than for many years back in the rural municipalities tax collections show an increase of 2.2 per cent over those of the preceding year. This is the highest percentage of increase in the collections of rural municipalities in the province since 1921.

Wealth Of British Columbia

Basic Industries Will Have Output This Year Valued at More Than a Quarter of a Billion Dollars.

British Columbia's basic industries will have an output this year valued at more than a quarter of a billion dollars. This is a record for the province, and it is a reflection of the growth of the basic industries in the province. The output of the basic industries is expected to continue to increase in the future.

Develop Reindeer Industry

Development of an extensive reindeer industry on the plains of the Manitoba River basin is being started by the formation of the Reindeer Reindeer Co., Limited, a concern capitalized at \$500,000, with headquarters at Vancouver, according to the Morning Star.

The Reindeer Reindeer Co., Limited, is a concern capitalized at \$500,000, with headquarters at Vancouver, according to the Morning Star. The company is planning to develop a reindeer industry on the plains of the Manitoba River basin.

Saskatchewan Aerial Service

Government Geologists to Make Intensive Investigation of Northern Area.

An aerial survey of Northern Saskatchewan is to be made, preliminary to an intensive investigation of the region by Government geologists. The investigation is being made by the Geological Survey of Canada, and it is expected to result in the discovery of new mineral resources in the region.

Agriculture on the Up Grade

Agricultural progress in Saskatchewan is on the up grade. The past few months have seen a steady increase in the production of grain and stock, and it is expected that the increase will continue in the future.

How To Order Patterns

Address—Winnipeg Newsprint Co., 125 McDermott Ave., Winnipeg. Pattern No. 1044. Size 26. Price 10c. Pattern No. 1045. Size 26. Price 10c.

Model School Is Started

Children of Wembley Mill Learn Under Ideal Conditions.

The first school in the Wembley Mill area is now open. The school is a model school, and it is expected to set a standard for other schools in the area. The school is located in a beautiful building, and it is equipped with all the latest facilities.

Saskatchewan Poultry Pool

Twenty-five Carloads of Dressed Birds Were Handled.

Announcement of the final payment on the Christmas poultry pool, in which 25 carloads of dressed birds were handled, yielding returns totaling \$118,800.15 to the producers, were announced by the Saskatchewan Poultry Pool following the meeting of the Executive Committee.

The pool was organized in 1925, and it has since that time been successful in securing for its members a fair price for their poultry. The pool is now open for the 1926 season.

Which Way?

Nomination day has come and gone and voters find themselves confronted with two candidates for the mayor's chair, six candidates for the three council seats, and three candidates for the two places as trustee on the school board.

Mayor Ringrose, and Councillors Maxwell and Solty, are seeking re-election, while Councillor Walls whose term expired, has been nominated for the second city. Messrs Mackenzie, Arnestad, Wyatt, and Morrow, are new men in municipal politics.

In the trustee election, Mr. Mark is seeking re-election, with Messrs Braren and Fairlaine newly nominated.

Considering the now well-known facts brought out at the ratepayers' meeting, the Review-Advertiser thinks it high time for the voters of this community to come back to these facts and face them squarely.

Instead of having been an independent body of six councillors with a mayor at its head, it seems to have dissolved itself into a form of five bodies with one head, which has done its utmost to freeze out the sixth member, though this man represented a large number of ratepayers.

The Review-Advertiser does not impute their motives to these men, but there is no doubt that this action has not been favorably received by public opinion at large, and voters in particular.

Taking all these things into consideration, this paper believes that new blood in its council is what Clareholm needs so that all ratepayers can be represented by the men whom they elect. The scales are not balanced evenly at present, and the only way to balance them is to elect new men, who, free of influence, can and will use their own minds, and in so doing, will actually represent the people who elect them.

Looking over the nomination slate, and studying the nominees, all appear to be fair, honest citizens. However, as only a stated number can be elected, the Review-Advertiser, having due regard to the circumstances, and in view of the conclusion that the following are the men who should be elected to the council, so that they may, in cooperation with the still sitting members, give Clareholm a real representative administration.

For Mayor—John Walls.
For Councillors—Norman Mackenzie, Martin H. Arnestad, and Stanley Wyatt.

The above ticket stands for a square deal all around, the provision of the ratepayers, a sound up to date system of taxation, and no capital expenditure, as was involved in the new power plant, without first consulting those who in the end have to foot the bill.

In federal politics, the days of oligarchy and party machine politics are almost gone by, a new more healthy system of real representative government is taking its place. This is what is needed in Clareholm.

The men named above stand for this new policy, and therefore ought to and will get the support of every clear and straight thinking voter in town.

Mr. Walls is well and favorably known, having been in business here for a long time.

Mr. Mackenzie, who has had wide experience as an engineer, is the town needs for its power department.

Mr. Arnestad, for many years a breeder of pure bred live stock, and now in business here, knows business problems and how to face them.

Stanley Wyatt has been in this district more than 20 years, and is therefore intimately acquainted with the problems which confront Clareholm.

The Review-Advertiser sincerely hopes to see these men elected, and it believes that they and none other should be chosen.

S., skunk, wild cat, black bear, raccoon, red and gray fox.

23. The Coldest Place in the United States?

At points in Montana, Wyoming and the Dakotas, the thermometer has been known to reach 50 below zero. Temperatures as low as 40 below are not uncommon in the northern tier of states. It is usually a dry cold, and not so severe on one as a much higher temperature in a moist climate. However, they have not much on other parts of the United States. The month of February 1899 produced the coldest weather ever known in the United States. There was sleighing for three days in southern Alabama; two inches of ice and 6 above zero at

New Orleans; in northern Florida, telephone and telegraph lines had been damaged by snow and ice; storm reached to the Rio Grande in southern Texas; many people frozen throughout the United States.

24. The Hottest?

In 1911 the U. S. Weather Bureau established a station at Greenleaf Ranch, located on the edge of Death Valley in southern California. Almost daily through June, July and August the temperature rises to 100 or more, and some time during each year has passed 120 degrees. On July 10, 1913, a properly shaded and ventilated thermometer registered 134 degrees, the hottest temperature ever registered in the U. S., and so far as known within two degrees of the hottest any place on earth. During the winter season, Death Valley occasionally has freezing weather. However, there is no state in the Union where 100 degrees or more has not been reached in some parts of the state. In several of the central states in extremely hot summers (1901 for instance), the thermometer has reached 110 to 115 for a number of days in succession.

25. Where Does Snow Never Fall?

In the southern part of Florida and the extreme southern part of California it never snows.

26. Where Frequently 50 to 70 Feet?

In the Cascade Range of mountains in Washington and Oregon, at an altitude of 5,000 to 6,000 feet the snow fall during the winter has reached as much as 50 to 60 feet. The Sierra Nevada mountains extend north and south in California for about 450 miles. Far up in these mountains the deepest snow in the United States has been experienced. At a point called Summit on the Southern Pacific railroad in 1879-80 there was a total snow fall of 65 feet during the winter. At Tamarack, not far away on the same road, in 1888-89 a total depth of more than 75 feet during the winter.

27. What Gigantic Trees. Now Alive. Were 1,000 Years Old At Time of Christ?

The "Big Tree" of California, which inhabits the western slopes of the Sierras, is the mightiest living thing on the face of the earth. (Name Sequoia in honor of Sequoyah, who invented the Cherokee alphabet). An ever-remarkable for its great size, found in detached groves mixed

mainly with immense sugar pines and firs. The North Calaveras grove contains 93 trees, of which 4 are over 300 feet high, the tallest called the "Keystone State" being 325 feet, diameter 6 feet from the ground 45 feet. The Grizzly Giant of the Mariposa Grove, 10 miles south of Yosemite Valley, is 25 feet high, 28 feet in diameter, and has a roadway cut through its base large enough for the "rubber-neck" sight seeing autos to pass through. The trunk of this tree is frequently furrowed to the depth of a foot, and is usually bear for 100 to 200 feet. It is entirely clear, the surrounding forest being about three feet old.

28. How Can One Use an Automobile to Keep His Radio Battery Charged?

Any properly working automobile generator produces more current than needed for the ignition, and when the lights are not burning furnishes excess current sufficient to bring a partially charged battery to full charge. Connect a second battery to fit the automobile, and use it for the radio. When making an extended daylight drive, or say once a week, switch the radio battery to the car and the car battery to the radio.

Here and There

Portage La Prairie, Manitoba—Two carloads of flour have been consigned to Salsburg, Greece. The flour is made from Manitoba Number 1 Hard wheat and is of the best quality. This large order is thought by the milling firm to represent the opening up of a new, valuable trade channel.

Saskatoon.—The colonization boards of the provinces, operating under the C.P.R. Department of Colonization, are doing a splendid work in colonizing the province along right lines, according to Mayor Potter, of Saskatoon, and other speakers, at the second annual meeting of representatives of those boards.

While the gypsy has been a familiar figure in fiction for at least a century, the novelist has usually taken for his characters the wild Romany types. But there is a modern type who has adapted himself to life. It is this type that John Murray Gibson, Dean of Publicity of the C.P.R., has chosen for the leading character in his new novel, "Kiss of a Gypsy."

MARRIAGES

VANCE—VANCE

A very jolly dance, attended by all their friends, neighbors and acquaintances, who were able to get there, was held in the Meadow Creek school to allow a host of well wishers to pay compliments to Meadow Creek's latest honeymooners, Mr. and Mrs. Robert M. Vance.

The dance, on February 2nd, a very gay and crowded one, was the final scene of wedding festivities begun on January 24th in Vancouver, when Mae, younger daughter of Mr. and Mrs. Robert Vance, formerly of Calgary and now of Vancouver, was united in marriage to Robert M. Vance, second son of Mr. and Mrs. J. J. Vance of Meadow Creek.

The wedding, which was one of unusual gaiety, by reason of being a double one, took place at the home of the bride's parents. The other couple were Miss Jessie, an elder daughter of Mr. and Mrs. Vance, and Mr. Clarence Johnston of New Westminster. Guests to the number of sixty witnessed the ceremony and sat down to a bountiful wedding supper, and most of them escorted the young couple to the wharf where they took the boat for Victoria.

After a short holiday at the coast, young Mr. and Mrs. Robert Vance arrived at Clareholm January 29th and have since been spending a short time with the groom's parents, Mr. and Mrs. J. J. Vance.

The dance here on February 2 was seized upon by Robb's many friends as an occasion to show him his universal and deserved popularity, while the bride during a previous short visit to Meadow Creek gained many friends on her own account.

A large number of useful, interesting and beautiful gifts, among which was a case of flat silver from the fellow employees of the bride, attested to the best wishes that follow this young couple to their home.

HOT DOGS

And Others

By Dick

The Army were had its innings at the Military Ball.

But what was too military for our comfort, was that some officers took to the dance floor with their spurs on.

Albert Brooker was the only man there, who was a bit, but he was one of the best looking soldiers.

Even though he didn't wear it in the regulation way.

There were a lot of old times present, but they should not wipe their mustaches so vigorously after having been outside.

It brings too many requests.

The gentleman who had been keeping company with the stars, that is with "Three Stars", told us, that as long as he raised on in the fried chicken belt as well as the girls on the floor, the country was no longer.

The same gent said, that though gentlemen may prefer blondes, regular rollers picked brunettes.

Well, who is going to take the role Billy and Scotty aren't half bad.

We have a suspicion that Scotty was the original for the corner of "Punch".

Q. M. S. Banfield doesn't approve of midnight waltzes.

The sarge ought to try it some time.

Chinook Gossip

Billy Fleming was in Calgary on business a few days ago.

Mr. and Mrs. Walter Eyer spent the weekend in Calgary.

Tom Syme bought a half section of land from Jacob Norstrom last week, the price being \$50.00 per acre.

Henry and Jack Ryge of Barditt, Alta. who were up here last fall looking over this part of the district, shipped their farming outfit to Woodhouse with the intention of starting farming in the neighborhood.

Mr. and Mrs. Billy McCorkle spent Sunday at the home of Bert Clarke.

Mr. Dan Desch returned from the Macleod hospital a few days ago.

For BUSINESS or CHARITY REASONS?

Charity is a great thing in its place, but in business matters business reasons should prevail. The Review-Advertiser solicits your advertising and job printing accounts on a business basis. We don't trot out the sob sister stuff, but can show you any day in the week a host of satisfied clients, for whom we produced results.

Consider this carefully and place your advertising and job work with a publication which can show you, not just promises, but actual RESULTS.

Dr. J. L. Chappelle, Pioneer Practitioner of Calgary, will make daily calls at Clareholm throughout the summer if the demand be sufficient. Anyone requiring the services please write Calgary office, Luna Block.

THIS IS WHAT NANTON DID

Nanton News, Jan. 27—The town council has finally reached an agreement with the Calgary Power company for a franchise to supply the town of Nanton with electric current. The franchise will be submitted to the voters for a vote in about five weeks, which is as early as it can be taken. Under the terms, the company will take over all of the old plant that is left, including the distributing system, and will deal direct with the consumer.

The company is to pay \$7500 for the distributing line and for all material salvaged from the old plant, and as soon as the franchise is granted, will install an energy plant and will operate it until 2 o'clock in the morning, until such time as the hydro-electric line can be completed.

To the Ratepayers of the Town of Clareholm:

Having listened to the earnest solicitations of a large number of ratepayers, and after carefully studying the matter, I have decided to allow my name to be put in nomination for the position of Mayor of the Town of Clareholm.

I have been in business in the town for a number of years with a fair degree of success. During this time I have carefully watched the working of the municipal machinery, sometimes with approval, sometimes the reverse. I have also just completed a two-year term as Councillor and feel that I am qualified to fill the position in every detail.

At the outset, I wish to say that in this letter, I seem to criticize some of the actions of the Mayor and Council. I do so from a desire to point out where I believe mistakes have been made and to suggest what I consider would be an improvement over the old policies followed.

In the first place I sincerely believe that where a large expenditure of the people's money is contemplated, such as the purchase and installation of the gas engine and changing of the wiring system, that the public should be consulted in the matter.

At the beginning of the year a considerable surplus was on hand, but this year the public would be consulted in the matter. At the beginning of the year a considerable surplus was on hand, but this year the public would be consulted in the matter.

It has been said in my presence that if an emergency arises which would call for a considerable expenditure, debtors might be sold for that purpose. It is clearly impossible to finance an emergency by that plan, because of lack of time. And in the present condition of our treasury the only alternative is to borrow at a stiff interest. That is not good business.

If elected, the public may be assured that a competent man will be placed in charge of the town's affairs, who will take necessary instructions from the committee interested. I am not a believer in one man government. Anyone who follows the municipal machine in the present times will be convinced that this system of government does not work successfully for very long.

Assessment and Taxation
Years ago, when the Town adopted the single land tax system, a large amount of vacant land was held by outside owners. The idea was to try and recover some substantial return from these lands or perhaps in some way to encourage the same, as no tax was levied on improvements.

Since that time, about 90 per cent of these lands have reverted to the town through non-payment of these taxes. This property is now a non-revenue property, with the result that the tax burden is increased to the resident taxpayer by just that amount. There are also a number of institutions in the town who do not pay taxes of any kind, and I believe that the time has come for a change in our method of assessment.

There must be some better method, as witnesses the fact that we are almost the only town in the province that still adheres to the old Henry George system. If elected it is my intention to make a thorough survey of other towns, study the different methods, and with a view to try and arrive at some system whereby we may remove some of this heavy burden.

I noticed a letter in the last issue of the "Review" signed "Ratepayer," commenting on the tendency of the late administration to discriminate against a taxpayer in the matter of appointments, carrying an emolument. In my judgement, this is a wrong tendency. Where conditions are equal the taxpayer should get the preference.

In closing I wish to again state that I do not do this to devise a method whereby we may secure a more equitable taxation and still secure sufficient funds to carry on. Soliciting your in-

To the Ratepayers of the Town of Clareholm:

Having been persuaded by a large number of the ratepayers of the Town of Clareholm to stand for the election as councillor to serve the people in that capacity, I beg to say that I stand for a business-like administration, and will give my best endeavors to see that the administrative business of the town will receive an open and above board hearing in all my official capacities should I be elected. I am in favor of all the town being administered as economically as possible, and I believe that any big expenditure proposed should be brought before the ratepayers for their sanction before it is passed by the council.

Should I receive the support of the ratepayers and be elected, I trust there will be no cause for regrets, as my aim is to help make the town the best governed and most prosperous in southern Alberta. Soliciting your support, I am for a sound business administration.

M. H. Armstrong

To the Ratepayers of Clareholm:

I wish to announce that I am a candidate for the Council at the forthcoming election. I believe myself to be well qualified, technically at least, to serve in that capacity; so, if you believe that I will make a useful member of the Town Council, please vote for me on Monday.

Norman MacKenzie

To the Voters of the Town of Clareholm:

Having been nominated for the office of Councillor, I take this opportunity of stating that if elected, I will do my best to carry out the things that will be of the best interest to the ratepayers of the Town, and I hereby solicit your support in the council election.

J. W. Morrow

To the Ratepayers of Clareholm:

Having been asked by quite a number of ratepayers to give my opinion to the stand I took at the ratepayers' meeting, I state that during the course of A. D. 1926 I have followed our municipal affairs very closely and that every department of our municipal affairs lacked efficiency.

In part for reasons: First that all councillors appointed as chairmen of committees were never consulted in matters affecting their departments. Second, that bills for wages and materials were OK'd and paid by the council without being questioned, which to my knowledge is a very unusual thing. A very great error on the part of a body of able men as we thought we had, as we knew that every bill has been done by town employees and machinery that was not town work, and that right to say we have reason to ask if we have not been paid by the town.

I must come to the question of our sidewalk that was laid in the year A. D. 1926. From the Bank of Commerce to the corner of Mr. Ramage's property there is 612 feet of sidewalk which cost the taxpayers of Clareholm the little sum of \$1,250.24, or a cost of \$2.02 per lineal foot, when the same sidewalks could have been laid for one dollar and twelve cents per lineal foot, or a total cost of six hundred and eighty-five dollars and forty cents.

I will ask you ratepayers if it was good business to employ a man that had no experience in laying sidewalks when you are fortunate enough to have among you a man that has been at the trade for 23 years?

Coming to the electric light department, we have one of the most extravagant expenditures ever has ever been made in this town of this size without first obtaining the sanction of the ratepayers for an expenditure of \$100,000, when the total tax levy of said town for municipal purposes is only \$18,868.60. It is only in cases of necessity and when it is urgently needed that such expenditure should be authorized by a council.

Thanking you Mr. Editor, for your valuable space.

Yours truly,

J. H. Bousquet

and votes. I am,

Respectfully yours,

John Wallis

CHURCHES

ST. JOHN'S CHURCH OF ENGLAND

Services will be held on Sunday February 13th, as follows: 12 o'clock—Sunday school and Bible class.

7:30—Evening service. Subject, "Shall we pray for the dead?" Preacher, Rev. W. H. Harkins, L. Th.

Seeing that this controversial subject may be permitted in our church according to the new revised prayer book in England, we will take it up fully on Sunday evening, showing what the Bible, Prayer Book and history teach us about it.

All Protestants ought to be present as it affects the most vital part of our Protestant faith. All are welcome.

Bright service. Good singing.

On Thursday evening at 8 p.m. Bible reading on the tabernacle in the wilderness, its lesson and types. Bring your Bibles. All are welcome.

Don't forget the Valentine tea to be held in the Parish Hall on Saturday afternoon from 3 to 6 by the girls' Bible class. Everybody welcome. Come and encourage the girls in their first effort.

UNITED CHURCH

Rev. T. T. Fairclough of Knox United Church, Lethbridge, will have charge of both services at 11 a.m. and 7:30 p.m.

I believe that these two special services of worship will be helpful and inspiring, and I trust that as many of our people as possible will share in this benefit.

Rev. W. W. Dalgleish

Nazarene Church Announcements

Friday evening, 8 o'clock, 10:30 a.m.—Sunday school. P. A. Harding, superintendent.

11:30 a.m.—Morning worship. Sermon by Pastor, Rev. Mrs. Bean.

7:30 p.m.—Evangelistic service. Inspiring song and praise service. Sermon by the pastor.

Tuesday evenings, 8 o'clock, prayer meeting.

Friday evenings, at 8 o'clock, Bible study in charge of pastor. Hearty welcome is extended to all who enjoy good music and God's Word.
